SUMMARY

Full Stack Developer with experience in HTML, CSS, JavaScript, React, NodeJS, ExpressJS, Bootstrap, and Tailwind CSS, RESTful API, Django, NoSQL, and MySQL. Expert in the implementation of interactive websites, with focus on the user experience and web performance. Seeking a full stack web developer position to enhance my skills and create a positive user experience.

Technical Skills

Programming Languages: JavaScript, Python

Back End: Django, Node.js, Express, MVC, SQL, NoSQL, Handlebars.js, GitHub, MongoDB

Front End: React, HTML5, CSS3, JavaScript ES6+, Bootstrap, Tailwind CSS, jQuery

PROJECTS

Inventory Management System | GitHub: https://bit.ly/3vAis78 | Live Demo: https://bit.ly/3MjkZcB
• Designed and implemented an inventory management system that tracked and managed the movement of inventory in a company.
• Led a team of 3 developers to develop and deploy a fully functional app in 10 days.
• Developed across the stack to implement both, back-end, and front-end features.
• Tech used: HTML5, Node.js, Express, JavaScript, Bootstrap, Handlebars, Font-Awesome and MySQL.

CoinHiz | GitHub: https://bit.ly/388Dm5s | Live Demo: https://bit.ly/3L2aRVF
• Collaborated on the development of a Cryptocurrency monitoring platform.
• Implemented Mapbox APIs to display Bitcoin ATM on the map.
• Helped implement Chart.js to showcase Crypto data.
• Tech Used: HTML5, Tailwind CSS, JavaScript, Server-side API.

EDUCATION

Boot Camp Certificate: University of Central Florida, Orlando, FL

General Educational Development Certificate: Daytona State College, Deltona, FL
